Yarra Valley Water	139	451	451	495	43
Western Water	158	227	227	248	21

Notes:

The typical annual household bill is calculated using the 2010-11 average consumption figure and includes both fixed and variable water and sewerage charges.

Does not include Parks and Waterways & Drainage charges.

[^] Prices in the Greater Melbourne service area to be held in constant \$,2011-12.

[#] The estimated reduction due to the price freeze is based on annual average consumption.

The actual reduction will vary depending on your level of annual consumption and whether you are a owner-occupier or a tenant. Further information will be provided in a consultation paper, covering the return of desalination money, to be released by the Commission in July 2012.
