| 2.8 Miscellaneous Fees and Charges | Actual cost | Actual cost |

^ Commercial and Recreational Supply-by-Agreement tariffs no longer apply upon customer conversion to pipeline supply. GWMW will address the prices that apply for commercial and recreational water supplies via rural pipeline on a case by case basis, with a 50% cap on the bill that applied in the prior year being the maximum that will be charged.

APPLICATION OF PRICES

1. Water tariffs

Water tariffs are based on water quality and source, consistent with the following table.

| <i>Potable Supplies</i> | <i>Disinfected</i> | <i>Non Potable Channel / Pipeline</i> | <i>Eastern Grampians</i> | <i>Non Potable Ground-water</i> | <i>Western Ground-water</i> |
|-------------------------|--------------------|---------------------------------------|--------------------------|---------------------------------|-----------------------------|
| Ararat | Beulah | Antwerp | Buangor | Apsley | Cowangie |
| Birchip | Brim | Berrillock | Elmhurst | Goroke | Murrayville |
| Charlton | Donald | Chillingollah | Moyston | Harrow | Nhill |
| Dimboola | Jung | Chinkapook | Wickliffe | Kiata | |
| Edenhope | Lalbert | Clear Lake | | Kaniva | |
| Great Western | Manangatang | Culgoa | | Lillimur | |
| Halls Gap | Minyip | Dooen | | Miriam | |
| Hopetoun | Nullawil | Glenorchy - surface | | Serviceton | |
| Horsham | Quambatook | Jeparit | | Streatham | |
| Lake Bolac | Rupanyup | Lascelles | | Westmere | |
| Murtoa | Sea Lake | Marnoo | | | |
| Ouyen | Ultima | Nandaly | | | |
| Pomonal | Walpeup | Natimuk | | | |
| Rainbow | Woomelang | Noradjuha | | | |
| St Arnaud | Wycheproof | Patchewollock | | | |
| Stawell | | Pimpinio | | | |
| Underbool | | Speed | | | |
| Warracknabeal | | Tarranyurk | | | |
| Willaura | | Tempy | | | |
| | | Waitchie | | | |
| | | Watchem | | | |
| | | Yaapeet | | | |

2. Trade waste categories

For various purposes, including assessing the charges **GMMWater**, shall categorise trade waste in the following manner:

- trade waste having a value of both the 5-day Biochemical Oxygen Demand concentration and the Suspended Solids concentration equal to or less than 600 mg/L and which is discharged at an annual rate equal to or less than 750 kL shall be known as category 1 trade waste.

- trade waste having the value of both the 5-day Biochemical Oxygen Demand concentration and the Suspended Solids concentration equal to or less than 600 mg/L and which is discharged at an annual rate greater than 750 kL shall be known as category 2 trade waste.
- trade waste having a value of both the 5-day Biochemical Oxygen Demand concentration and the Suspended Solids concentration greater than 600 mg/L or Chemical Oxygen Demand concentration greater than 1200 mg/L irrespective of the volume discharged shall be known as category 3 trade waste.
- trade waste having characteristics which are outside the limits set by this by-law or considered by the authority to not be satisfactorily identified as category 1, 2 or 3 trade waste but which is capable of being treated by **GMMWater's** treatment facility will be categorised as category 4 trade waste. Category 4 trade waste discharges may from time to time be accepted by **GMMWater** at the discretion of **GMMWater**.

3. Transfer of water entitlement

Application and certificate fees are set by the Water (Permanent Transfer of Water Right) Regulation 2001.

4. Rural pipeline services

- Capacity charge is applied to each ML of allowance, which is based on property size at the rate of 2.5kL per hectare
- The minimum capacity charge is applied to all properties smaller than 40 hectares. The minimum capacity charge provides the customer with a 100kL allowance.
- Primary meter charges apply to meters servicing a house. The primary meter provides the customer with an additional allowance of 730kL per year which does not attract the capacity charge.
- The annual increase in each customer's bill will be capped to ensure that no bill increases by more than 50 per cent in a year, adjusted for the volume of water used.
- Customers classified as division four customers under the channel tariff who inform GMMWater that they do not intend to take pipeline water will have their fixed charges set at zero until they sign on as pipeline customers.

5. Miscellaneous fees and charges

Fire service and standpipe fees – availability charge for connection to service.

Water (all – standpipe) – cost of water by volume.

Water tapping/connection charge – processing application and/or completing the work of exposing the water main for the tapping or plugging of a connection.

Wastewater connection charges – processing application and/or completing the work of cutting into the sewer for the purpose of a house, commercial or industrial connection.

Special meter reading – the fee payable for any requested meter reading in addition to **GMMWater's** normal meter reading program.

Disconnection/reconnection of water supply – the fee payable any alteration, modification or substitution to the water supply connection.

Information statements – fee for processing formal statement indicating status of any matter Corporation deems relevant to properties – within 5 days turnaround.

Information statements (priority) – fee for processing formal statement indicating status of any matter Corporation deems relevant to properties – within 24 hours turnaround.
