This **MEMORANDUM OF UNDERSTANDING** is made on the 21st day of November 2023

between

ESSENTIAL SERVICES COMMISSION

and

ENERGY AND WATER OMBUDSMAN VICTORIA

(collectively, the “parties”)

Preamble

- A. The Essential Services Commission (**commission**) is an independent statutory body established under the *Essential Services Commission Act 2001* (Vic). The commission’s primary objective is to promote the long-term interests of Victorian consumers having regard to the price, quality and reliability of essential services. The commission is responsible for making economic regulatory decisions and determinations, and monitoring and ensuring compliance with the Victorian energy regulatory frameworks and water regulatory frameworks. The commission is also responsible for the administration of the Victorian Energy Upgrades Scheme and administering components of the rate-capping system for the local government sector.
- B. The Energy and Water Ombudsman Victoria (**EWOV**) resolves consumer complaints about electricity, gas and water companies operating in Victoria, with the further aim of reducing the occurrence of such disputes. EWOV is the dispute resolution scheme approved by the commission under section 28 of the *Electricity Industry Act 2000*, section 36 of the *Gas Industry Act 2001* and section 122ZG of the *Water Act 1989*. EWOV is also part of the complaints escalation process for water businesses as set out in water industry standards made under section 4F of the *Water Industry Act 1994*, for signatories to the Victorian LPG Retail Code and for embedded networks.
- C. EWOV is an independent external dispute resolution scheme. EWOV is not a government organisation and does not report to a government minister. However, as part of electricity and gas licence obligations, by reference to obligations in the *Water Act* and in water industry standards made under the *Water Industry Act*, orders, or other relevant standards and codes made by the commission, regulated energy and water businesses are required to participate in the scheme. As EWOV is industry-funded, the cost of resolving complaints is met by the participants in the scheme, not taxpayers.

- D. The parties have entered into this memorandum of understanding (**MoU**) to promote effective communication, coordination and information management between them in performing their respective statutory functions.
- E. This MoU does not deal with governance or other arrangements that are detailed in the Energy and Water Ombudsman Victoria's Charter and Constitution or in the commission's Compliance and Enforcement Policy.
- F. This MoU supersedes the MoU dated 9 September 2019 between the parties.

The parties agree to the following:
