BACKGROUND

Section 16(1) of the Industry Act provides that a person must not engage in the generation of electricity for supply or sale or the transmission, distribution, supply or sale of electricity unless the person is:

- (a) the holder of a licence authorising the relevant activity;
- (b) exempted from the requirement to obtain a licence in respect of the relevant activity; or
- (c) is the holder of a trial waiver in respect of the relevant activity.

Section 18(1) of the Industry Act provides that a person may apply to the commission for a licence authorising the person to generate electricity for supply or sale and to sell electricity (under subsections (1)(a) and (d)).

On 22 June 2022, Mondo Power applied to the commission for a licence authorising it to generate electricity for supply or sale, and to sell electricity to the wholesale electricity market.

Consistent with the requirements of the commission's electricity generation licence application form and 'Guideline: Applications for electricity and gas industry licences', Mondo Power provided the commission with necessary documentation supporting the application.

On 10 November 2022, the commission published a copy of the application, and invited interested parties to make submissions in respect of the application. The commission did not receive any submissions regarding the application.

CONSIDERATION OF THE APPLICATION

Section 19(1) of the Industry Act provides that the commission may grant or refuse the application for any reason it considers appropriate, having regard to the objectives of the commission under the provisions of the Industry Act and the Essential Services Commission Act 2001 (Vic) (Commission Act).

DECISION

The commission is satisfied that:

- Mondo Power has the technical capacity to comply with the conditions of the licence to be granted; and
- Mondo Power is a fit and proper person to hold a licence to generate electricity for supply or sale, and to sell electricity in Victoria.

In accordance with Section 19(1) of the Industry Act, and having regard to its objectives under the Commission Act and the Industry Act, the commission has decided to grant Mondo Power a licence to generate electricity for supply or sale, and to sell electricity. This authorisation granted by the licence is limited to the generation of electricity at the Phillip Island Battery Energy Storage System located at Phillip Island in Victoria and sale through the wholesale market.
